**La GBC Italiana  
 vi offre la qualità,  
 la precisione e il prezzo  
 Texas Instruments.**

Provate le calcolatrici elettroniche Texas Instruments presso la GBC Italiana: ne troverete tante altre, una e più di una, adatta alle vostre necessità.

Sono tutte realizzate con le stesse caratteristiche di fabbricazione che hanno fatto della Texas Instruments una delle aziende più rinomate del mondo nel campo dell'elettronica per qualità, precisione e prezzo.

Inoltre, poiché una le calcolatrici elettroniche Texas Instruments vengono fabbricate in Italia, esse possono beneficiare di un'assistenza rapida e di prim'ordine e di una reale garanzia di un anno sui componenti e la manodopera.

Le calcolatrici Texas Instruments sono rilevanti di prezzo. Confrontatele con quelle della concorrenza e vedrete che, comunque, Texas Instruments, è il modo più saggio di risolvere i vostri problemi.

**La calcolatrice che pensa è un calcolatore.**

La TI-155-II è una calcolatrice elettronica programmabile pensata per il calcolo. Funziona automaticamente in modo continuo per facilitare la lettura, l'archiviazione e la stampa. Un'automazione a memoria.

La TI-155-II è programmabile, ha 16 bit di memoria, un display a cristalli liquidi per gli angoli della grafica e la lettura di un solo valore al calcolo.

Altre funzioni automatiche di memoria, memorizzazione tra differenti usanze di memoria, combinazioni e programmi.

È così pensata essere impostata in memoria standard, scientifica e ingegneristica.

È dotata di operatori aritmetici dalla memoria costante, che ha una capacità di immagazzinamento fino a 16 passi.

di programma. Inoltre la TI-155-II è dotata di memoria con protezione interna con 16 celle.

L'Automatic Transmemory, cioè il suo calcolatore per memoria.

Ma chi si occupa di manutenzione, di servizio, di ingegneria non può che scegliere la TI-155-II.

Nella gamma Texas Instruments potete anche scegliere la TI-155LCD, la calcolatrice migliore per chi sceglie a scuola, la TI-155, molto più che una semplice calcolatrice per lo studio, la TI-155, la calcolatrice che può insegnare qualcosa sul calcolo.

Per un prezzo speciale si offre a tutti gli studenti.

È possibile impostare il sistema di stampa e di ingegneria con un'automazione Texas Instruments.

**PROMPTING DESIRED?**

With the SR60, business & scientific computing is simply a matter of asking the right questions.

Texas Instruments' new SR60 is the desktop calculator with complete features, 1/2 of its size for unparalleled portability. Because once the program is programmed into the SR60, the SR60 will do the required calculations as long as it needs it.

And for more complex and debugging, in addition to a 100-2 digit LCD display, a quarter turned CRT for memory display calculation.

SR60 includes 13 user defined and 48 scientific functions; load the SR60's algebraic operating system with 8 levels of parentheses. Problems with up to 10 pending operations can be handled, and 140 program steps (up to 1-1/2 inches with optional features). Data storage in 40 memories (4 of 432 with optional memory).

The SR60 is supplied complete with full-time power lead and multiple memory.

Programming: Prompting, prompting, AI, 432 Lines or less, the SR60 from Texas Instruments. Full-time service for all your needs. And see how the SR60 meets your needs.

**The economical calculator-based math system for students.**

Designed to meet the needs of today's students, the Slimline TI-35 Student Math Kit is a unique problem-solving package of math tools. Based on the Slimline Math Kit is the \$4 function TI-30 slide rule calculator with Constant Memory™ feature which retains data stored in memory even when the calculator is turned off. It handles a wide range of math problems, from algebra and trigonometry to statistics, AC/DC algebraic equations.

TI system makes it easy to enter programs. An easy-to-read liquid crystal display and AFD™ auto matrix power down allow up to 1,000 hours of normal operation from a set of batteries. Compressing the TI-35 in the 224-page Student Calculator Math Book which includes operating tips, math facts and math puzzles.

**LEWIS BOOKSTORE**

410 - United States TI35

**Slimline™ 50™**  
 scientific calculator with statistics and new Constant Memory feature

**POWERFUL, MODERNIZED, NEW IDEAS**

- 48 functions automatically handle a wide range of mathematical functions: trigonometric, exponential and natural logarithms, and engineering or degree radians or grads
- Includes many special functions such as: algebraic percent, constant, factorial, scientific notation and matrix operation.

**PLUS STATISTICS, PAPER TAPES**

- Built-in statistical functions include data entry, mean, and standard deviation and variance for both sample and population data
- Paper tape to handle large sets of data points and "hard-copy" data with the most commonly used statistical calculations.
