**Tous comptes faits,
gagnez de l'argent tous les mois.**

Les banques proposent de vous offrir un compte de placement à taux fixe, mais elles ne vous offrent pas de calculatrice. Or, pour gagner de l'argent tous les mois, il faut savoir calculer. C'est pourquoi nous vous recommandons la TI-2000. Elle vous aide à faire vos calculs et à gérer votre argent. Elle est simple à utiliser et vous permet de gagner de l'argent tous les mois.

TEXAS INSTRUMENTS

121 - France T2000

**Voire calculatrice actuelle peut rejoindre
la galerie des ancêtres.**

Les progrès de la technologie ont permis de développer des calculatrices de plus en plus performantes. Elles sont plus précises, plus rapides et plus faciles à utiliser. C'est pourquoi nous vous recommandons la TI-1766. Elle est la dernière née de la famille TI et elle vous permet de faire vos calculs plus facilement que jamais.

Le progrès qui fait progresser.
TEXAS INSTRUMENTS

122 - France TI1766

**Plus géniale
qu'une calculatrice,
voici la Math-Machine:**

La TI-30 Galaxy.

Plus qu'une calculatrice, la TI-30 Galaxy est une véritable machine à calculer. Elle vous aide à faire vos calculs plus facilement et plus rapidement. Elle est simple à utiliser et vous permet de gagner de l'argent tous les mois.

**Les calculatrices,
c'est fait pour le calcul,
pour les maths, voici la Math-Machine:
la TI-30 Galaxy.**

Choisir une calculatrice, c'est faire un choix. Il faut une calculatrice qui soit simple à utiliser, qui soit précise et qui soit rapide. C'est pourquoi nous vous recommandons la TI-30 Galaxy. Elle est la dernière née de la famille TI et elle vous permet de faire vos calculs plus facilement que jamais.

TEXAS INSTRUMENTS

Une calculatrice doit résoudre des problèmes, pas en poser.

Les calculatrices scientifiques, c'est fait pour faciliter la vie des élèves, des étudiants et de leurs professeurs.

TI-OS (Algebraic Operating System, système algébrique direct), permet d'effectuer rapidement et facilement les opérations mathématiques. En permettant d'introduire les nombres et les opérations de gauche à droite, comme le professeur les enseigne et les expose au tableau, TI-OS évite les erreurs et fait gagner du temps. Toutes les calculatrices scientifiques peuvent-elles le faire? Ou est-ce seulement Texas Instruments qui le fait?

Recherche des racines? Fonction des Puissances? Calculs basés sur la géométrie des solides? TI-OS "Texas performance" Texas Instruments commence à tester de TI-OS.

TEXAS INSTRUMENTS
 l'Électronique qui vous fait progresser.

La GBC Italiana vi offre la qualità, la precisione e il prezzo Texas Instruments.

Provate le calcolatrici elettroniche Texas Instruments presso la GBC Italiana: ne troverete altre otto, e più di una, adatta alle vostre necessità.

Sono tutte realizzate con le stesse caratteristiche di fabbricazione che hanno fatto della Texas Instruments una delle aziende più rinomate del mondo nel campo dell'elettronica per qualità, precisione e prezzo.

Inoltre, poiché una delle calcolatrici elettroniche Texas Instruments vengono fabbricate in Italia, esse possono trarre di un'assistenza rapida e di primo ordine e di una reale garanzia di un anno sui componenti e la manodopera.

Le calcolatrici Texas Instruments sono ribassate di prezzo.

Confrontatele con quelle della concorrenza e vedrete che, comunque, Texas Instruments dà molto più valore al vostro denaro.

Texas Instruments. Elettronica alla punta delle vostre dita.

Probabilmente è stato una Texas Instruments la vostra prima calcolatrice. Ora c'è TI-95 Pocket. E non vi serve altro.

Questa calcolatrice è...
 • Portatile e pratica
 • Precisa
 • Affidabile
 • Facile da usare

TEXAS INSTRUMENTS

242 - Italy TI95

TEXAS INSTRUMENTS TI-95.
 Tutto per tenere in mano la vostra professione.

Questa calcolatrice è...
 • Portatile e pratica
 • Precisa
 • Affidabile
 • Facile da usare

TEXAS INSTRUMENTS

243 - Italy TI95

TEXAS INSTRUMENTS vi offre calcolatrici scientifiche con un eccezionale rapporto prestazioni-prezzo.

Quale scegliete?

TEXAS INSTRUMENTS

244 - Italy TIxx

Uno strumento di studio e di lavoro consigliato dalle migliori scuole europee: calcolatrici scientifiche Texas Instruments con sistema A.O.S.

Questa calcolatrice è...
 • Portatile e pratica
 • Precisa
 • Affidabile
 • Facile da usare

TEXAS INSTRUMENTS

245 - Italy TIxx

Studenti, uscite pure con la ragazza.

Al problemi di calcolo ci pensano le scientifiche Texas Instruments, la convenientissima TI-25 ad esempio.

Questa calcolatrice è...
 • Portatile e pratica
 • Precisa
 • Affidabile
 • Facile da usare

If this calculator doesn't look familiar, look again!

SR 51A. That's right. It's the new, improved version of the SR 50, and the price is the same! Sleeker, more attractive, with a better display. Provides instant science, engineering and statistical solutions. Three addressable memories. Natural and constant logarithms. Trigonometric and hyperbolic functions including display switch. Calculator's new requires linear regression on two-dimensional random variables. Displays slope, intercept... and more. Statistically computes factorial and permutations. Random number generator. Finds mean, variance and standard deviation. Not down on the keyboard is the ability to perform 3D automatic conversions (plus their inverses). Units include inches/centimeters, feet/meters, degrees/radians, degrees/grads, degrees/radians... and others. Of interest to many will be degrees/minutes/seconds/decimal degrees conversions, polar/rectangular conversions and multiple mode/fixes. 13 decimal places accuracy internally. Modified algebraic logic. Now \$79.95.

three machines in one.

programmable slide rule calculator SR-52

- 10 user-defined keys
- 200 program memory locations
- 22 programming key functions
- 2 programmable function operations
- 20 independent addressable memory registers
- 20 program steps for keylocks
- Permanent program storage on magnetic tape

...and more! ...and more! ...and more!

PROMPTING DESPRED?

With the SR60, business
& scientific computing
is simply a matter of asking
the right questions.

Texas Instruments' new SR60 is the desktop calculator with computer features. It's the way for untrained persons to use. Because once the problem is posed and programmed by card or keyboard, the SR60 does for the required information as and when it needs it.

And for easy updates and debugging, it relates to a 10-2 digit LCD display to give immediate visual record of any calculation.

Features including: 13 user defined and 40 scientific functions; fast SR60's algebraic operating system with 9 levels of parentheses. Problems with up to 10 pending operations can be handled; up to 400 program steps (up to 5,100 steps with optional modules); data storage in 40 memories (up to 430 with optional modules). The SR60 is supplied complete with software power and instruction manuals.

slimline **TI-35** *student math kit*

\$25.00

The economical calculator-based math system for students.

Designed to meet the needs of today's students, the Slimline TI-35™ Student Math Kit is a unique problem-solving system of math tools. Based on the Student Math Kit is the 64-function TI-35 slide rule calculator with Constant Memory™ feature which retains data stored in memory, even when the calculator is turned off. It handles a wide range of math problems, from negative and exponential to statistics. ACS™ algebraic keypad system makes it easy to enter problems. An easy-to-read liquid crystal display and ACS™ Auto mode power down allow up to 1,200 hours of normal operation from a set of batteries.

Complementing the TI-35 is the 224-page Student Calculator Math Book which includes operating tips, math facts and math puzzles.

LSUS BOOKSTORE

Slimline™ 50
 scientific calculator with statistics and new Constant Memory™ feature

PRECISION. ACCURACY. SPEED. VALUE.

- 48 functions automatically handle a wide range of mathematical results, percent, trigonometric and natural logarithms, and exponentiation in degree, radian or grad.
- Includes many special functions such as pi, alpha and percent, constant, factorial, scientific notation and matrix expansion.

NEW. STATISTICAL. PAGED NOTES.

- Built-in statistical functions include data entry, mean, and standard deviation and variance for both samples and population data.
- Helps you to handle large sets of data quickly and accurately with the most commonly used statistical calculations.

WE MAY BE SWITCHED OFF BUT THE MEMORY LINGERS ON.

Constant memory from Texas Instruments. It's save you re-doing calculations you've forgotten, or putting down notes when it's just not handy. All four of these calculators will hold the results of your calculations in their thoughts for as long as you wish, even when switched off.

TI-15 (Scientific Calculator)
• 240 registers
• 240 memory locations
• 240 program steps
• 240 program steps
• 240 program steps

TI-30 (Scientific Calculator)
• 240 registers
• 240 memory locations
• 240 program steps
• 240 program steps
• 240 program steps

TI-30 (Basic Calculator)
