U.S. CALCULATOR PRODUCTS DIVISION

### INTRODUCING A SERVICE FOR USERS OF THE TI-59 PROGRAMMABLE CALCULATOR

#### **PPX: Professional Program Exchange**

You are no doubt aware of the revolutionary capabilities and problem solving versatility of the TI-59. But chances are you did not know about the thousands of programs written especially for the TI-59 that are available to you through the Professional Program Exchange—PPX.

PPX is an international network of TI-59 users who help each other by sharing programming ideas and solutions. Programs written by PPX members in nearly 100 categories (see the listing on the back of this sheet) are available for purchase by members for a nominal \$4 charge. With each program ordered, you will receive a program abstract, program description, sample problem, user instructions, and keystroke listing. Magnetic cards are not included.

Use PPX as a medium of exchange with others who share your professional interests. Use it to broaden your knowledge of the world. Use it to entertain, help, and challenge yourself and your fellow members. PPX is for you!

As a PPX member, you will receive:

- PPX Software Catalog. This catalog, which is updated annually, identifies and describes all programs and accessories available through the exchange.
- Member's Guide. Provides you with instructions and acceptance criteria for submitting your own programs to PPX.
- PPX Exchange. This bimonthly newsletter is a forum for members as well as a means of conveying membership news and information. Programming hints, feature articles on varied uses of the TI-59, and programs of unusual interest are also included.
- Order Forms. Provide a convenient method of ordering programs and programming accessories. Also available are complete TI-59 libraries, consisting of 11-26 related programs recorded in solid state software modules; packettes, consisting of 5-11 related programs (documentation only); and programming systems (1800-9000-step segmented programs).

Would you like to become a member of PPX? The cost of a one-year membership in Canada, Mexico, and the United States and possessions is \$20. Overseas membership is \$30 (overseas members purchase accessories from local distributors, but receive programs, catalogs, and newsletters direct from PPX).

## Professional Categories

### BUSINESS

- 01 Management Accounting
- 02 Manufacturing Engineering
- 03 Inventory Control
- 04 Marketing/Sales
- 05 Personnel
- 06 Transportation
- 07 Insurance
- 08 Real Estate
- 09 Business (General)

### FINANCE

- 10 Accounting
- 11 Auditing
- 12 Banking
- 13 Consumer Finance
